### **About Rolani's Wonderland:**

Rolani's Wonderland started in 2012 after a particularly difficult time for Leilani Howard and her family in Bakersfield California. When their daughter Lyla was born prematurely and only enjoyed a few brief moments in Leilani's arms. It would be several sleepless emotional months before she would get to feel the joy of having her infant in her arms once more.

During this time without her daughter at home with her Leilani and her husband Rodney sought something to connect them back to their daughter. Together to ease their minds and their hearts they came up with the idea of creating a blanket to bring Lyla home in and keep her warm until she got stronger and healthier. They wanted to create a small commemorative blanket to celebrate finally bringing her home.

Leilani remembers the moment clearly when she brought Lyla home and introduced her to her new siblings and family. They finally got to wrap her in the blanket they had created for her and snuggle as a family. It was at this moment that Leilani knew she had created her Wonderland Moment.

Since then Leilani has been creating wonderland moments for families across the United States and the world. She has shipped her cuddly throws as far and wide as Australia, Kuwait and Wales. Helping families to create those special moments and sharing in them has been one of her greatest joys since bringing her daughter home. Each story Leilani hears brings joy to her heart that something she has created is bringing families closer together.

Now Leilani wants to create and share in the holiday memories with her Winter Wonderland Collection. During this magical time of year family is important and being with one another reminds everyone that there is magic in the air and a bond with one another that cannot be broken. Share the holiday with your family and friends creating memories that will never fade.
